In addition, we have a longer, woodwork or craft project children can come back to throughout the term, as well as shorter term projects which may be completed in one session or over a week. There is no pressure on children to "produce" something; the joy and learning is rather in the experience and opportunity of being creative and using our hands.

We look forward to getting to know you and your child and hope they have a rich and rewarding time with us.

drumduan SCHOOL

Kindergarten Aftercare Programme

Drumduan School Aftercare is a nurturing, fun and creative environment designed to give children a home away from home during the afternoons. It is a service offered by the school to support parents and children who need it.

Aftercare runs from the Oak Room 12:45-3:00 pm on Monday and 12:45-3:45 pm Tuesday to Friday during term time. Attendance of aftercare can be either permanent or ad-hoc. As much advance notice is requested when booking sessions.

Rhythm:
We start each day together eating lunch, which children bring from home, followed by story-time and a short rest period spent lying down.

The rest of the afternoon is spent doing some form of short activity or craft, followed by free play which is outdoors as much as possible.

Activities are usually based on what is happening seasonally and tied in with what the rest of the school is doing. We have a different focus on different days of the week. e.g.

- a food preparation day where we make a healthy snack or treat together
- a more expansive outdoors day where we might go into the woods for a picnic for example
- a cleaning day – where we take extra care of our space and things before we go out to play
- a creative expression day - this could be something artistic like painting or drawing or making up stories, singing songs, being theatrical etc.
